

# e-SwapMeet Inventory Cards

Photograph more products in less time

---

## How it works

1. Print the grid size that fits your products. Larger items need a 3x3, smaller items use a 5x5.
2. Place one product per square and take a single overhead photo of the entire grid.
3. In each product listing, reference the coordinate where the item appears (example: "Shown in position C4").

### Printing tip

These grids scale to any size. For larger sheets, take this PDF to a print shop and request tabloid (11x17) or larger. The grid scales perfectly.
